CalciPhos

(High Quality Di-Calcium Phosphate for Poultry)

CalciPhos is a vital mineral feed supplement in poultry diets, providing essential phosphorus and calcium for strong bone development, improved eggshell quality, and healthy growth. It helps prevent nutritional deficiencies such as rickets, enhances feed efficiency, and is generally included at appropriate levels in the total feed formulation.

Composition :

Calcium 24%

Phosphorus 18%

Benefits :

- Produces hard, strong shells and reduces breakage in layers
- Supports proper body development & weight gain
- Helps avoid rickets, weak legs, and bone deformities
- Enhances nutrient utilization in the body
- Ensures uniform growth and better performance

Target birds :

Broiler, Layer and breeder

Dosages :

7kgs per ton of feed

Packing :

500 gms, 1000 gms & 10 kgs
