# SURVI CARE

Advanced support for stress relief and better survival

**Survi Care** is scientifically formulated water supplement designed to enhance growth rate, improve feed conversion ratio and to reduce mortality during critical periods such as brooding, vaccination, transportation, heat stress, disease challenge, and seasonal changes. It strengthens immunity, improves vitality, and helps birds recover quickly from stress conditions.

**Survi Care** combination of Energy system, Electrolytes, Amino acids, vitamins and gut protection compounds.

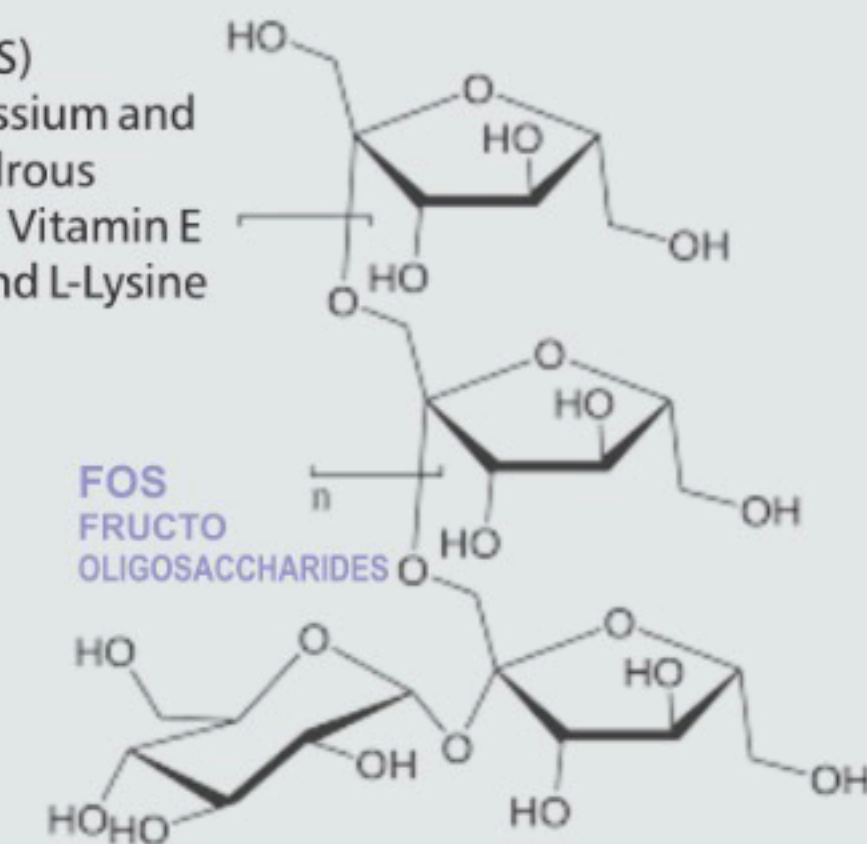

### Benefits:

- Enhances feed efficiency (Better FCR) Boosts immunity & disease resistance
- Restores hydration quickly.
- Prevents heat stress acidosis
- Maintains electrolyte balance during heat stress
- Supports early immune response
- Improves gut villi integrity
- Enhances feed intake
- Improves weight gain and uniform growth.

### Composition :

|                                  |                                           |
|----------------------------------|-------------------------------------------|
| Gut Integrity                    | : Prebiotics (FOS)                        |
| Electrolytes & osmoregulation    | : Sodium, potassium and Betaine anhydrous |
| Stress and antioxidants          | : Vitamin C and Vitamin E                 |
| Amino acids                      | : Methionine and L-Lysine                 |
| Chlorine chloride                |                                           |
| Essential vitamins and minerals. |                                           |

**Dosage :** 3-4 ml/Ltr
